PROMOTER: THE CHANGE IS IN YOU - CILENTO (SA), ITALY

THE PRESIDENT

given the financial approval of the above-mentioned project by the Erasmus+ Program-2018 Action Sport,

INVITES

Children and young people aged between 6 to 30 years old to take part to the contest for the selection of 30 people who will take part to the following activities:

- Sport group activities aimed at the developing of social and relation competences of the participants and the improvement of the perceptive skills related to time and space;
- Seminars about sport and health held by an expert in the field of sport and health;
- Seminars held by sociologists.

ABOUT THE PROJECT

The project pursues the objectives of European policy in matter of sport, in particular the ones quoted in the Council Recommendation of 26th November 2013 on

promoting health-enhancing physical activity across sectors and EU Orientations on sport, agreed by the EU working group on “Sport and Health” in the meeting of 25/09/2008 and confirmed by the Ministers of the Member States in the forum in Berritz, France, 27th and 28th November 2008. After appropriate analysis (later indicated), the project aims at facilitating the solution of specific problems, which are significant to European sports policy.

The project aims at:

- 1) Promoting and developing **education to sport and through it and the transversal skills through sport**, as integral part of the key competences of European citizenship, highlighting the importance of learning of the programmes for the **prevention of diseases and promotion of health**;
- 2) Developing the competence of “learning to communicate”, **”learning to be together with other people”**, in particular, **with people who find difficult to integrate themselves into society**. This objective can be achieved if the public authority becomes aware that it is important to practise sports, independently from the performance (“sport for all”), thus facilitating, **social inclusion and equal opportunities in sport** for people who risk exclusion and enhancing the importance of **voluntary work** in the field of sport and health.
